🪪 Profile

As a fourth-year software engineering student with a passion for innovation and determination, I believe that I would bring an exceptional set of problem-solving skills, technical knowledge, and a commitment to deliver a high-quality software solutions. Throughout my academic journey, I have advanced my skills in various programming languages, software development processes, and collaborative team works.

🎓 Education

2021/07 – present Addis Ababa, Ethiopia	***Addis Ababa University (Addis Ababa Institute of Technology) - Student*** 🔗 • Bachelor of Science in Software Engineering and Computing Technology (Information Technology Stream) • Expected to **graduate in July 2025.**

📂 Projects

2023/02 – 2023/03	**Social Platform for Hobbyists** 🔗 • The PHP-based social platform caters to hobbyists, by offering a streamlined interface for users to connect globally based on shared interests. • Users can choose up-to 14 pre-defined hobbies. • The admin facilitates connections by pairing individuals with similar interests, promoting conversations and friendships.
2022/07 – 2022/08	**Adventures of Ninja** 🔗 • Created a pixel art side-view shooter game in Java Swing with a team of 5. • The game features three enemy projectiles (Fireball, Thunder, Flying Minions) and dynamic enemy movement mechanics across four aggression phases, providing a challenging and engaging gaming experience.
2023/10 – 2023/12	**React To Do App** 🔗 • A react application for managing your to-do list. • Easily add new tasks to your to-do list with a user-friendly interface. • Streamline your workflow by deleting completed or unnecessary tasks in a single click.
